

Need Additional Bulletin Board Space?

WHAT A CATCH!

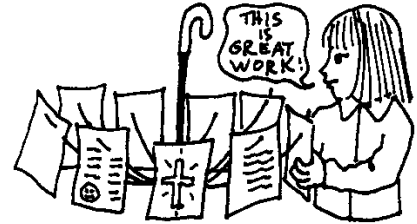

Tired of tacking up papers on the wall?

1. Try stringing fishnet in the corner of your room.
2. Use clip style clothespins to hand up students' work, special announcements, posters, etc.

HANG IT UP!

Don't throw away that old umbrella!

1. Cut away all the fabric, leaving the handle and metal ribs.
2. Hang it from a hook from the ceiling of your room (you may need to extend the length of the handle with some twine, etc.).
3. Poke holes in the papers and then use the ribs of the umbrella as the "hanger."

MOBILIZE

The wire frame from an old lampshade makes a lightweight, durable base from which to hang any number of mobile ornaments.

1. Strip away the fabric from the shade.
2. Paint the wire, if desired
3. Hang the shade frame from the ceiling, and Mobilize!
